

Abstract of the Disclosure
MULTI-FUNCTIONAL ADMIXTURES FOR CONCRETE
AND CONCRETE USING SAME

5

A multi-functional admixture for concrete, having improved fluidity for providing hardened materials with improved early strength, smaller shrinkage rate, improved resistance against freezing and thawing action and slower carbonation speed, contains a
10 specified kind of graft copolymer and/or its salt, a specified kind of (poly)alkyleneglycol monoalkyl ether and a specified kind of organic phosphate at specified ratios.
